

Tuning In To Baby Cues Children's Week @ Tweddle

Have you ever wondered
about your baby or toddler's
unique non-verbal messages?

As part of Children's Week, Tweddle will host **"Tuning In To Baby Cues"** a play and learning session for parents, carers, babies and toddlers explaining what different cues mean, a cue-card making workshop and a healthy morning tea.

The Children's Week theme, *'Children's views and opinions are respected,'* underpins this educational, insightful and fun workshop.

We will celebrate the unique nonverbal language of babies and some of the fundamentals to good mental and physical health including:

- How do babies express themselves?
- What are their capacities to learn?
- How do babies and toddlers form secure relationships?
- What are the different ways babies explore their environment?
- What are the different tired signs?
- What are the different hunger cues?

#BabiesBrainsMatter
